

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.
 Frederick Manuell, Maryland, bought a bottle of Newbro's Herpicide, April 8, '09, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 33 days he had hair all over his head. On July 3 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Steps falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Thoughtless Young Man, Who Brings Sorrow to Worthy Family, Placed on Probation.

Ernest Gaudreau was before Judge William A. Arnold in police court on Monday morning, and was arraigned in chambers, being a minor. He was charged with larceny of a gold watch and four and three dollars.
 Through his guardian, William C. Lyman, he pleaded guilty to both counts, as he was sick and could not appear in court. The judge placed on probation for a period of six months. Prosecuting Attorney E. Frank Bugbee stated to the court that he had found that Gaudreau had taken the watch and money to purchase medicine, as he was sick. The young man comes from an excellent family and inasmuch as it was his first offense he was let off easy and given an opportunity to turn over a new leaf.

Mr. Stearns did not accuse the young man of relieving him of the various other sums that have been stolen from time to time.
 Alec Harsanyi, charged with receiving and concealing stolen property, entered a plea of not guilty. The judge stated that he had acted as counsel for the accused, and in view of that fact he would continue the case until this morning, so that Judge James A. Shea might hear the case.

THEATER COMBINE
 May Be Necessary—Two Moving Picture Houses Advance Rates.

The possibility that a combine may be effected between the moving picture and vaudeville theaters in this city, has been a subject of discussion for some time. The class of people who are in the habit of patronizing these amusement resorts.

There are three theaters in the city that have been running pictures and vaudeville stunts of varying merit for the past year or more and each proprietor of late has been trying his best to outdo the others in the quality of the entertainment offered for the small sum of a half-dime.
 For a number of months the performances have been worthy ones, and the general public has reaped the benefit that called for a higher admission price. The expense of staging the vaudeville performances of late has increased so that the proprietors have been laying out large sums for new and up to date stuff and have been forced to pocket what is believed to be a comparatively small profit for the effort expended.

Monday the bills at two of the theaters, the Bijou and the Elite, announced that the price of the evening performance would be a dime instead of the accustomed ten cents. The bills also bore the statement that the price of the matinee performance would be a dime instead of five cents. The Elite is the only theater not to advertise a change, but it is said that the management of that house will also be sufficiently advanced to conform with the advance in the price of admission is a question that the public will soon settle one way or another.

This cheap vaudeville performance has become practically a craze in this city. It has been noted that the winter season was accountable for the falling off in the patronage at these resorts during the past few weeks.

"The Dollars of the Daddies"

You know how hard they were earned, how carefully they were husbanded, how judiciously they were invested.

The dollars grew into hundreds, the hundreds into houses, into farms, into wise and profitable business investments. These "dollars of the daddies" are the basis of our present prosperity. They were not lured into speculation, or into risky investments. The "daddies" demanded security and accepted the returns absolute safety gave.

What about your dollars? Are they absolutely safe? Make them so by starting an account with this institution at once and allow your mind to be relieved from all attendant worries occasioned by questionable financial deals.
